

PAA Flight Case Policy

Version: 1.0

All new order PAA Flight cases shall fit the following standards-

- 600mm Width External (i.e. '1/4 Truck' size) or less.
- Be manufactured from 9mm Ply (6mm with Special Dispensation).
- Be of a high pressure smooth laminate finish, colours as per:
 - **Grey-** Cable trunks
 - **Black-** all others.
- Have a PAL Label Dish positioned top Right on the lid (See Fig 1).
- Have sufficient handles- all four sides where possible, at suitable heights.
- Have four-grade castors. Non locking where case will be tipped.
- Cases which are designed to remain on their wheels shall have at least 2 locking castors.
